

# CVO Issues

The Coalition of Veterans Organizations is an activist group of veterans' organizations and individuals which fights for six key points on behalf of veterans. They are:

- a. Full Mandatory Funding of VA healthcare for veterans. Federally funded healthcare for *all* veterans—male and female—without further pay. We have already paid with our service and in many cases our blood and our lives.
- b. Eligibility for VA healthcare and benefits for all honorably discharged veterans without co-payments and categories of service delivery. Not all veterans are now eligible for healthcare and many who get it must pay.
- c. Ending veteran homelessness and the realignment of the VA Per Diem grants system. There is no greater disgrace than the fact that thousands of veterans in this country are homeless. Though some are sick, many simply do not have the support structures to be off the streets. This disgrace can be and must be remedied!
- d. Reform of funding and full accounting for all VA mental health services for veterans. Scores of veterans—many returning from Iraq and Afghanistan—do not receive the mental health care they need, despite front-page stories detailing the horrors these veterans face.
- e. Awarding presumptive benefits. We call on the federal government to immediately fund benefits for all veterans when they apply for VA disability. If they have the medical diagnosis and military records support their application, then the benefits should be granted when they apply. The application process can then be carried out. There should be no re-payment if benefits are denied. Such a policy would end the government backlog and care for needy veterans and survivors.
- f. Full equality of women's benefits and healthcare. Women veterans have special needs. The gap between services and benefits for women and those for men is unacceptable. It must be closed immediately and all services and benefits for women made fully available immediately.

*We are dealing  
with Veterans,  
not procedures...*

*With their prob-  
lems, not ours.*

**Coalition of Veterans Organizations**

**CVO is made up of  
active veterans'  
organizations fighting  
for rights, benefits and  
healthcare for all  
veterans—male and  
female.**

The Coalition of Veterans Organiza-  
tions was founded in November 2006 by  
veterans activists from across the Chica-  
goland area. They represented more than  
a dozen different organizations strug-  
gling for veterans rights and benefits.

These veterans realized that we  
needed to be united in order to effect the  
kinds of changes for which veterans  
have been struggling for decades.

Each of our member organizations  
has its own mission and priorities, but  
together, we have decided on six key ar-  
eas where no one organization can have  
the impact we can have together. Thus,  
CVO has been an action arm of many  
veterans' organizations.
