

Veterans

Smile

Many of our "Veterans in need" suffer numerous health related issues from the lack of dental care.

The Veterans Smile Program through sponsorship by NWVU is helping to raise awareness to this growing Veterans issue. The ultimate goal of the program is to provide FREE critical dental care for our fellow "Veterans in need".

They served, they deserve!!

Making a difference in the quality of our Veterans lives through dental care improves their overall physical and mental health. The Veterans Smile Program is giving our Veterans something to SMILE about.
