

**Military Outreach USA**

Trauma Comes Home, documentary, offers hope and healing to warrior families who find themselves sharing the effects of Moral Injury, Post Traumatic Stress, and other Traumas that affect the mind, body, and soul of the whole family, community and more.

Our partnership has one goal, SAVING LIVES! Crosswinds has also created these DVDs. go to:

[Stand-By-Me Heroes – MILITARY OUTREACH USA](#)

We recommend every post and organization purchase these DVDs and distribute throughout your communities. The recorded veteran suicide rate ranges between 22-40+ per day. The VA does not count self-injury mortality and 18 states keep no records of our fallen heroes.
